Full Stack Developer (Laravel+React Js)

Current Professional Summary & Aspiration

- Currently working with **Standardwings Technology PVT Ltd.** as **- Sr. Web Developer**.

- I aspire to be part of an innovative and growth-oriented company where I can continue to develop my technical and leadership skills, contribute meaningfully to the organization's success, and grow both personally and professionally.

Profile

- **4 years** of solid experience in **full-stack web development** with expertise in both frontend and backend technologies.

- **Frontend Development – React js (Javascript)**

  - Proficient in building modern, responsive, and interactive UIs using React.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Bootstrap, Tailwind CSS.

  - Hands-on with React Hooks (useState, useEffect, useReducer, useMemo, useCallback) for optimized state & lifecycle management.

  - Experience with Redux & Context API for scalable state management in large SPAs.

  - Skilled in React Router v6 for nested routes, dynamic routing, and protected routes.

  - Implemented code-splitting & lazy loading for performance optimization.

  - Experience with custom hooks and building reusable UI libraries.

  - Familiar with Next.js for server-side rendering (SSR) and static site generation (SSG).

  - Applied unit testing & component testing using Jest, React Testing Library, and Cypress.

  - Strong focus on performance tuning (React Profiler, memoization, avoiding re-renders).

  - Worked on data visualization dashboards using Highcharts, Chart.js, and D3.js.

- **Backend Development – Laravel (PHP)**
  - Strong experience in Laravel framework for developing RESTful APIs and robust web applications.
  - Clear understanding of MVC architecture, Eloquent ORM, Laravel routing, form validation, authentication (Sanctum), middleware, job queues and and role-based access control.
  - Skilled in writing optimized raw SQL queries and advanced Eloquent relationships (hasOne, hasMany, belongsTo, etc.).
  - Good knowledge of database design, schema migrations, and working with MySQL. Developed modules involving CRUD operations, report generation, pagination, and file uploads.
  - Experience with MySQL: schema design, writing complex joins, and optimizing queries using raw SQL and Eloquent.

  Familiar with indexing strategies, query profiling, and performance tuning for large datasets

Skills

Web Technologies (HTML5, CSS, Bootstrap, JavaScript, React Js, PHP, Laravel, Typescript)

Web Server (Apache)

Database (SQL Server, My SQL, PostgreSQL)

IDE & Tools (VS Code, Notepad++, Visual Studio, SQL Server Management Studio, pgAdmin, DBeaver)

Version Control (GIT,GitLab, GitHub)

Other Tools & Technologies (NPM, Composer,Postman, Chrome DevTools, Laravel Artisan, Copilot, Cursor Editor, ChatGPT)

Professional Experience

Full Stack Developer, *Standardwings Technology PVT. LTD – Nashik*
                                                          10/2021– Present

- Participate in project planning, requirement gathering, and team discussion.
- Convert business needs into technical tasks, UI designs, and workflows.

- Develop and lead implementation of full-stack web apps from scratch
- Review code for quality and ensure adherence to best practices.

- Handle change requests, bug fixes, and performance enhancements.
- Present project demos and POCs to clients and internal teams.

- Troubleshoot issues and deliver scalable, client-approved solutions.
- Stack: Laravel, PHP, React js, MySql, Sql.

Projects

❖ **Smartsheet Web App**

Technologies: Laravel 11, PHP, REST API, MySQL, jQuery, AJAX, HTML5, Bootstrap

Description: Developed a web portal integrated with Smartsheet API, supporting user management, secure token-based access, and collaboration between Smartsheet and non-Smartsheet users.

Features: Smartsheet users can view, manage, and share sheets/reports via the portal and Non-Smartsheet users can view and interact with shared data based on permissions.

Domain: SaaS Integration / Project Management

❖ **SWT Income/Expense Manager**

Technologies: Laravel 11, PHP, REST API, MySQL, React js, HTML5, Bootstrap, Redux

Description: Developed a centralized web portal to manage company-wide finances including income, salaries, taxes, bank/server payments, and more.

Features: Admin panel to track and manage expenses and income and real time reporting.

Domain: Finance / Enterprise Resource Planning (ERP)

❖ **Foxilogic**

Technologies: React.js, Redux, Laravel 10, Google map, Cron jobs, MySQL

Description: Built a network management system for monitoring base station networks and automating issue resolution workflows.

Features: Real-time monitoring of active and inactive base stations. Automated ticket creation and role-based task assignments. Designed intuitive reporting interfaces for system administrators.

Domain: Telecom / Network Monitoring

❖ **Skewb**

Technologies: React.js, Redux, Axios, Highcharts

Description: Developed a data analytics platform for marketing budget analysis across traditional and digital channels.

Features: Dynamic, interactive visualizing spending trends using highcharts. Modular UI components for easy scalability. API integrations to fetch and display real-time data.

Domain: Marketing Analytics / AdTech

❖ **NMC Ghantagadi**

Technologies: Laravel 9, Google Maps API, MySQL

Description: Created a vehicle tracking system to monitor garbage pickup routes and schedules.

Features: Integrated GPS for real-time vehicle tracking. Designed penalty modules for route violations. Provided detailed analytics dashboards for operational insights.

Domain : Municipal Waste Management / Smart City

❖ **Malegaon Streetlamp**

Technologies: Laravel 8, Blade, MySQL

Description: Developed a complaint management system for streetlamp maintenance with distinct workflows for supervisors, engineers, and wiremen.

Features: Role-based access control for multiple user types. Real-time status updates and reporting tools. Automated escalation for unresolved issues.

Domain: Municipal Services / Complaint Management

Education

Bachelor of Engineering (Computer Science) : 2021 |
91.85% Amravati University, Malkapur

Diploma (Computer Science) : 2018 | 72%
MSBTE, Malkapur

Secondary School Certificate (SSC) : 2015 |
83% MSBTE, Malkapur
